PROFESSIONAL SUMMARY

Software Engineer with experience in full-stack web application development using the **MERN stack** (**MongoDB**, **Express.js**, **React.js**, **Node.js**), along with **Next.js** and **WordPress**. Skilled in building responsive and high-performance user interfaces, developing RESTful APIs. Seeking a professional Software Engineer role to contribute to scalable, secure, and high-quality software solutions.

INTERNSHIP

Tryidol Technologies

August 2025 – present

Software Engineer Intern

India

- Worked on ERP-level web applications using the **MERN stack**, contributing to frontend development, feature implementation, and UI optimization.
- Developed and maintained web applications using **Next.js**, focusing on performance optimization, routing, and reusable component architecture.
- Built and customized **WordPress** websites, including theme customization, responsive layouts, and content management system (CMS) enhancements.
- Collaborated with cross-functional teams to test, debug, and improve application usability and performance.

EDUCATION

Bansal Institute of Science and Technology

2021 – 2025

Bachelor of Technology in Computer Science Engineering (CGPA: 7.33)

India

TECHNICAL SKILLS

Programming Languages: JavaScript, Java, SQL

Web Technologies: HTML, CSS, Tailwind, React.js, Next.js, Node.js, Express.js

Databases: MongoDB, MySQL

CMS: WordPress

Tools & Platforms: Git, GitHub, VS Code, Axios, React Query

PROJECTS

E-Commerce Web Application | MERN Stack (MongoDB, Express.js, React.js, Node.js)

2025

- Developed a full-stack e-commerce application using the **MERN stack** with secure user authentication and role-based access.
- Implemented product listing, cart functionality, and order management using RESTful APIs.
- Designed responsive UI components with React.js and integrated backend services using Node.js and Express.js.
- Used MongoDB for database management and followed clean code and MVC architecture.

Real-Time Chat Application | MERN Stack, Socket.io

2025

- Built a real-time chat application using the **MERN stack** and Socket.io for instant messaging.
- Implemented JWT-based authentication, private and group chats, and real-time message updates.
- Designed responsive chat UI using React.js with real-time status handling.
- Ensured secure communication and optimized performance for concurrent users.

EXTRACURRICULAR

Gurucool Vision Foundation ↗

April 2024 – Dec 2024

Assistant Manager

Delhi

BGI Discipline Committee ↗

Jan 2022 – April 2025

Secretary

Bhopal

BGI Training and Placement Cell ↗

Jan 2022 – April 2025
